No, I don't see any need. A WP:TRAINWRECK is when lots of articles get nominated together. This is just a bad tempered debate. Fences&Windows 22:51, 11 March 2011 (UTC) c65dacbd3f Agh. user has just created this article, and I simply can't figure it out. That he created it fully wikified with a formatted referenced and proper link to Wiktionary is suspicious enough. On top of that, this article came complete with maintenance tags and a semi-protection template. I just have to be convinced this was copy pasted from somewhere, I simply can't figure out where. Kelvinc (talk) 06:56, 29 November 2007 (UTC) c65dacbd3f An edit filter is blocking my attempts to add relevant entries to Shit (disambiguation), citing "Addition of bad words". Perhaps the filter could be modified to add an exception for pages whose titles contain "bad words". I posted about this problem nearly 20 hours ago at Wikipedia:Edit filter/False positives/Reports, but an administrator reviewing the reports skipped mine. Assistance with this problem would be greatly appreciated. Thank you. D638 (talk) 00:41, 10 August 2015 (UTC) c65dacbd3f I've gone ahead and deleted it... the speedy tag removal appears to have been from before the revelation that this was a vandalized version of that article, so the concern expressed at the talk page appears to be moot. --Kinu t/c 07:05, 29 November 2007 (UTC) c65dacbd3f Wikipedia:Articles for deletion/Indie Game Jam is a trainwreck with no hope of consensus. One case was reported by Endroit (see Wikipedia:Administrators' noticeboard/3RR#User:Appleby reported by User:LactoseTI (Result:)) but some seem to be left unreported. c65dacbd3f I followed up a recent vandalism revert on Cricket and found that the culprit,User:Sillystring32, has already received a number of friendly warnings. Frankly, he has got off lightly. Every single edit he has made is offensive. I request an immediate and indefinite ban because he is clearly intent on causing trouble (he is one of those mature people who think that everything sucks, apparently).
