The nature of the auto-suggestive practice may be, at one extreme, "concentrative", wherein "all attention is so totally focused on (the words of the auto-suggestive formula, e.g. "Every day, in every way, I'm getting better and better") that everything else is kept out of awareness" and, at the other, "inclusive", wherein subjects "allow all kinds of thoughts, emotions, memories,

and the like to drift into their consciousness". 9f2bd9add9 Commercial advertisements often seek to generate increased consumption of their products or services through "branding", which associates a product name or image with certain qualities in the minds of consumers. On the other hand, ads that intend to elicit an immediate sale are known as direct-response advertising. Non-commercial entities that advertise more than consumer products or services include political parties, interest groups... 9f2bd9add9 There are competing theories explaining hypnosis and related phenomena. Altered state theories see hypnosis as an altered state of mind or trance, marked by a level of awareness different from the ordinary state of consciousness. In contrast, non-state theories see hypnosis as, variously, a type of placebo effect, a redefinition of an interaction with a therapist or a form of imaginative role enactment. 9f2bd9add9
