Mulberry Street, basically Dr. Seuss's first book. Because it was his first, many writers have focused on it, and as far as I know, this Wiki article cites all of them. I don't really know anything about FACs, but Curly Turkey, who has been working with me on this article and who seems to be a regular here, says this article is just about ready. I'll take his word for it and brace myself for the deluge of constructive criticism. :D Bobnorwal (talk) 18:09, 2 January 2014 (UTC)[reply] 46d9fb1b15 Run WPCleaner in the command line with a command such as: 46d9fb1b15

In particular, the curvature of spacetime is directly related to the energy, momentum and stress of whatever is present, including matter and radiation. The relation is specified by the Einstein field equations, a system of second-order partial differential equations. General relativity generalizes special relativity and refines Newton's law of universal gravitation, providing a unified description of gravity as a geometric property of space and time, or four-dimensional spacetime. (2009) General relativity, also known as the general theory of relativity, and as Einstein's theory of gravity, is the geometric theory of gravitation published by Albert Einstein in 1915 and is the accepted description of gravitation in modern physics 46d9fb1b15
