

Flight Crew Operating Manual Boeing 737 400

SilkAir Flight 185 SilkAir Flight 185 was a scheduled international passenger flight operated by a Boeing 737-300 from Soekarno-Hatta International Airport in Jakarta, Indonesia SilkAir Flight 185 was a scheduled international passenger flight operated by a Boeing 737-300 from Soekarno-Hatta International Airport in Jakarta, Indonesia to Changi Airport in Singapore that crashed into the Musi River near Palembang, Sumatra, on 19 December 1997, killing all 97 passengers and 7 crew members on board 84d68ffc30

The crash of Flight 210 was the first crash among strings of aircraft accidents that rocked Nigeria in 2005 and 2006. In response, then... 84d68ffc30

Boeing 737 MAX The Boeing 737 MAX is a series of narrow-body aircraft developed by Boeing Commercial Airplanes as the fourth generation of the Boeing 737. It succeeds The Boeing 737 MAX is a series of narrow-body aircraft developed by Boeing Commercial Airplanes as the fourth generation of the Boeing 737. The program was announced in August 2011, the first flight took place in January 2016, and the aircraft was certified by the U. It succeeds the Boeing 737 Next Generation and incorporates more efficient CFM International LEAP engines, aerodynamic improvements such as split-tip winglets, and structural modifications. S. Federal Aviation Administration (FAA) in March 2017. The first delivery, a MAX 8, was made to Malindo Air in May 2017 84d68ffc30

Developed to supplement the Boeing 727 on short and thin routes, the twinjet retained the 707 fuselage width and six abreast seating but with two underwing Pratt & Whitney JT8D low-bypass turbofan engines. Envisioned in 1964, the initial 737-100 made its first flight in April 1967 and entered service in February 1968 with Lufthansa. 84d68ffc30 The aircraft was on a scheduled flight from London Heathrow Airport to Belfast International Airport. When a fan blade broke in the left engine, smoke was drawn into the cabin through the air conditioning system. The pilots believed this indicated a fault in the right engine, since earlier models of the 737 ventilated the cabin from the right, and they were unaware that the 737-400 used a different system. The pilots retarded the right thrust lever and the symptoms of smoke and vibration cleared,... 84d68ffc30 The investigation of the crash was hampered by the lack of physical evidence on the crash site, which was caused by the aircraft's high speed during impact and by looting afterward. The flight recorders were not recovered, and forensic analysis of the pilots could not be conducted. As a result, the investigation

was not able to conclude the cause of the crash. 84d68ffc30

Kegworth air disaster Kegworth air disaster occurred when British Midland Airways Flight 092, a Boeing 737-400, crashed onto the motorway embankment between the M1 motorway The Kegworth air disaster occurred when British Midland Airways Flight 092, a Boeing 737-400, crashed onto the motorway embankment between the M1 motorway and A453 road near Kegworth, Leicestershire, England, while attempting to make an emergency landing at East Midlands Airport on 8 January 1989 84d68ffc30

Boeing 737 MAX certification S. Both crashes were linked to the Maneuvering Characteristics Augmentation System (MCAS), a new automatic flight control feature. S. Federal Aviation Administration (FAA) and the European Union Aviation Safety Agency (EASA). Global regulators grounded the plane in 2019 following fatal crashes of Lion Air Flight 610 and Ethiopian Airlines Flight 302. Federal Aviation Administration (FAA) and the European Union Aviation Safety Agency (EASA) The Boeing 737 MAX was initially certified in 2017 by the U. The Boeing 737 MAX was initially certified in 2017 by the U 84d68ffc30

Boeing wanted the FAA to certify the airplane as another version of... 84d68ffc30 Investigations into both crashes determined that Boeing and the FAA favored cost-saving solutions, which ultimately produced a flawed design of the MCAS instead. The FAA's Organization Designation Authorization program, allowing manufacturers to act on its behalf, was also questioned for weakening its oversight of Boeing. 84d68ffc30

Boeing 737 The Boeing 737 is an American narrow-body aircraft produced by Boeing at its Renton factory in Washington. Developed to supplement the Boeing 727 on short The Boeing 737 is an American narrow-body aircraft produced by Boeing at its Renton factory in Washington 84d68ffc30

The final report, investigated by the Indian Directorate General of Civil Aviation, concluded that the cause of the crash was due to pilot error. The aircraft was on approach with its engines at idle thrust and the crew made several maneuvers with high-pitch attitude. When the aircraft sounded a warning on an impending stall, the crew elected to execute a go-around procedure instead of a stall recovery procedure, causing the aircraft to enter... 84d68ffc30 The 737 MAX series includes four main variants—the MAX 7, MAX 8, MAX 9, and MAX 10—with increasing fuselage length and seating capacity. Boeing also developed a high-density version, the MAX 8-200, launched by Ryanair. The... 84d68ffc30 The Advanced Series 300 was announced at the September 1984 Farnborough Airshow, targeting a 10% cost reduction with more efficient engines and 1,000 nautical miles [nmi] (1,900 km; 1,200 mi) of additional range.

Northwest Airlines became the first customer with an order for 10 aircraft on October 22, 1985. The first 747-400 was rolled out on January 26, 1988, and made its maiden flight on April 29, 1988. Type certification was received on January 9, 1989, and it entered service with Northwest on February 9, 1989. Boeing expressed its sympathy to the relatives of the Lion Air Flight 610 and Ethiopian Airlines Flight 302 crash victims, while simultaneously defending the aircraft against any faults and suggesting the pilots had insufficient training, until rebutted by evidence. After the 737 MAX fleet was globally grounded, starting in China with the Civil Aviation Administration of China the day after the second crash, Boeing provided several outdated return-to-service timelines, the earliest of which was "in the coming weeks"... The crash was caused by the crew's inadequate flight management during adverse weather conditions. The flight crew were not trained adequately and properly on the automated system of the Boeing 737-236A, a more advanced version of the Boeing 737-200 series, and didn't retain sufficient knowledge on the correct procedures for handling an aircraft in bad weather conditions. Additionally, Bhoja Air...

Boeing 747-400 The Boeing 747-400 is a large, long-range wide-body airliner produced by Boeing Commercial Airplanes, an advanced variant of the initial Boeing 747. The Boeing 747-400 is a large, long-range wide-body airliner produced by Boeing Commercial Airplanes, an advanced variant of the initial Boeing 747

It retains the 747 airframe, including the 747-300 stretched upper deck, with 6-foot (1.8 m) winglets. The 747-400 offers a choice of...

Bhoja Air Flight 213 On 20 April 2012, the Boeing 737-236A aircraft serving the route crashed in bad weather during the final approach, killing all 121 passengers and 6 crew on board. 2012, the Boeing 737-236A aircraft serving the route crashed in bad weather during the final approach, killing all 121 passengers and 6 crew on board. It remains the second deadliest air disaster in Pakistan, after the 2010 crash of Airblue Flight 202. Bhoja Air Flight 213 was a domestic scheduled passenger flight operated by Pakistani private airline Bhoja Air from Karachi to Islamabad

The investigation into the cause of the crash was led by investigators from the National Transportation Safety Committee (NTSC), who were joined by the National Transportation Safety Board (NTSB). The NTSB, which participated in the investigation due to Boeing's manufacture of the aircraft in the US, investigated the crash under lead investigator Greg Feith. In its final report, the NTSC found "no concrete evidence" to support the pilot suicide allegation, with the previously...

Bellview Airlines Flight 210 Bellview Airlines Flight 210 was a scheduled Nigerian domestic passenger flight of a Boeing 737-200 airliner from Lagos to Abuja, operated by Lagos-based Bellview Airlines Flight 210 was a scheduled Nigerian domestic passenger flight of a Boeing 737-200 airliner from Lagos to Abuja, operated by Lagos-based Bellview Airlines. On 22 October 2005, the aircraft nose-dived and crashed at high speed a few minutes after takeoff, killing all 117 people on board 84d68ffc30

The first generation 737-100/200 variants were powered by Pratt & Whitney JT8D low-bypass turbofan engines and offered seating for 85 to 130 passengers. Launched in 1980 and introduced in 1984, the second generation... 84d68ffc30 The lengthened 737-200 entered service in April 1968, and evolved through four generations, offering several variants for 85 to 215 passengers. 84d68ffc30

Alliance Air Flight 7412 July 2000, while on approach to its first stopover in Patna, the Boeing 737-2A8 operating the route nose-dived and crashed into a residential area in Patna Alliance Air Flight 7412 was a scheduled Indian domestic passenger flight from Calcutta to Delhi, operated by Indian regional airliner Alliance Air. On 17 July 2000, while on approach to its first stopover in Patna, the Boeing 737-2A8 operating the route nose-dived and crashed into a residential area in Patna, killing 60 people including 5 on the ground 84d68ffc30

Reactions to the Boeing 737 MAX groundings Boeing expressed its sympathy to the relatives of the Lion Air Flight 610 and The two fatal Boeing 737 MAX crashes in October 2018 and March 2019 which were similar in nature - both aircraft were newly delivered and crashed shortly after takeoff - and the subsequent groundings of the global 737 MAX fleet drew mixed reactions from multiple organizations. global 737 MAX fleet drew mixed reactions from multiple organizations 84d68ffc30
