The 1991 *Dark Shadows* tells a streamlined version of the original storyline – the arrival of governess Victoria Winters at the great estate of Collinwood in Collinsport, Maine; vampire Barnabas Collins being released from his coffin; Dr. Hoffman's attempt to cure Barnabas' vampirism medically; and, finally, Victoria's time travel back to 1790 to witness the events in which the still-human Barnabas is transformed into an undead creature.

Shadow and Bone received generally positive reviews, with praise for its world-building and cast, but some criticism aimed at its pacing. Following its success, Netflix renewed the show for a second season, which premiered on March 16, 2023, and adapted *Siege and Storm* (2013), *Ruin and Rising* (2014), and parts of *Crooked Kingdom* (2016). Despite growing fan support, *Shadow and Bone* was canceled after two seasons in November 2023.

== Background == Sega Studios USA chose to make a game featuring Shadow to capitalize on his popularity and resolve plot mysteries that began with his introduction in Sonic Adventure 2 (2001). Shadow the Hedgehog was written and directed by Takashi Iizuka and produced by Yuji Naka, with music by Jun Senoue. Iizuka strove to attract an older audience; Shadow's character allowed the team to use a darker tone and elements otherwise considered inappropriate for the series.

Initially framed as a mixture of family saga and gothic romance, the series introduced progressively more supernatural elements during its first year, culminating in the debut of the vampire Barnabas Collins (Jonathan Frid), who quickly became Dark Shadows' breakout character and main protagonist. The show would go on to feature ghosts, werewolves, zombies, man-made monsters, witches, warlocks, time travel, and parallel universes. Silicon Knights based their concept around Lovecraftian horror and the Eternal Champion concept, and decidedly avoided making a survival horror game. It was originally planned for the Nintendo 64, and was mostly completed before development was moved to Nintendo's forthcoming home console, the GameCube. It was the first game published by Nintendo to receive an M (Mature) rating from the Entertainment Software Rating Board (ESRB). 42cc08aba2 The game is completely unrelated to the Joseph Conrad novel of the same name. 42cc08aba2 == Description == 42cc08aba2
