Drawing up a comprehensive list of words in English is important as a reference when learning a language as it will
show the equivalent words you need to learn in the other language to achieve fluency. You can use the list to
generate your own lists in whatever language you're learning and to test yourself. Eventually these words will all be
translated into big lists in many different languages and using the words in phrase contexts as a resource. A big list
will constantly show you what words you don't know and what you need to work on and is useful for testing yourself
