More recently, there have been proposals for English as... 60b94ea184

Multilingualism and globalization Multilingualism is considered the use of more than one language by an individual or community of speakers. Globalization is commonly defined as the international movement toward economic, trade, technological, and communications integration and concerns itself

with interdependence and interconnectedness. Therefore, though globalization is widely seen as an economic process, it has resulted in linguistic shifts on a global scale, including the recategorization of privileged languages, the commodification of multilingualism, the Englishization. accepting more international students and professors, publicizing foreign language education programs, and sending more students abroad through their study Globalization has had major effects on the spread and ascribed value of multilingualism. As a result of the interconnectedness brought on by globalization, languages are being transferred between communities, cultures, and economies at an increasingly fast pace

Knowledge building problems. • Ideas Improvable. In the classroom students should be concerned about understanding the real-world problems. The theory addresses the need to educate people for the knowledge age society, in which knowledge and innovation are pervasive. Students' ideas are regarded as The Knowledge Building (KB) theory was created and developed by Carl Bereiter and Marlene Scardamalia for describing what a community of learners needs to accomplish in order to create knowledge
