Maggiore, the Basilica of San Vitale, St Mark's Basilica,. Many are among the world's most renowned works of architecture. The earliest large Cathedrals, collegiate churches, and monastic churches like those of abbeys and priories, often have certain complex structural forms that are found less often in parish churches. Saint Basil's Cathedral, Antoni Gaudí's incomplete Sagrada Família and the ancient cathedral of Hagia Sophia in Istanbul, now a mosque. Such churches are generally among the finest buildings locally and a source of regional pride. They also tend to display a higher level of contemporary architectural style and the work of accomplished craftsmen, and occupy a status both ecclesiastical and social that an ordinary parish church rarely has
