Social constructionism Glasersfeld, E. , An Invitation to Social Construction. The term can serve somewhat different functions in each field; however, the foundation of this theoretical framework suggests various facets of social reality—such as concepts, beliefs, norms, and values—are formed through continuous interactions and negotiations among society's members, rather than empirical observation of physical reality. University of New York Press Gergen, K. The theory of social constructionism posits that much of what individuals perceive as 'reality' is actually the outcome of a dynamic process of construction influenced by social conventions and structures. von, Radical Social constructionism is a term used in sociology, social ontology, and communication theory. Stage-crisis view This theory is characterized by both definitive eras as well as transition phases, whose purpose is to facilitate a smooth transition out of one era and into the next. Norton, 1998), Berger, Kathleen Stassen (2014). Crises are also experienced throughout the lifecycle and occur when one become burdened by either internal or external factors, such as during the midlife crisis that occurs. According to his theory, various developmental tasks must be mastered as one progresses through each era; pre-adulthood,

early adulthood, middle adulthood, and late adulthood. Although largely influenced by the work of Erik Erikson, Levinson sought to create a broader theory that would encompass all aspects of adult development as opposed to just the psychosocial. Erikson, *The Life Cycle Completed: Extended Version* (W.). W. New Stage-crisis view is a theory of adult development that was established by Daniel Levinson.
