boom of the 2020s, text-to-image models such as Midjourney, DALL-E and Stable Diffusion became widely available to the public, allowing users to quickly generate imagery with little effort. The history of artificial intelligence has raised many questions on the nature of art in human-AI collaboration, while commentary about AI art in the 2020s has often focused on issues related to copyright, deception, defamation, and its impact on more traditional artists, including technological unemployment. AI art frequently constitutes AI slop mass-produced for online engagement at the expense of quality. 1a9537f01f

Draft:Caleb Stanton declined three times, and the reviewers provided reasons and some guidance. Minimally, delete all the iTunes refs and seek what people have about him. Also, a lot of what is in the draft seems to be personal knowledge (Example: "Stanton started writing songs at age 14. He wrote them behind his bedroom door, where no one could hear."). Your User page should explain what if any personal connection you have to Stanton. MuZemike (talk) 18:39, 14 September 2008 (UTC)reply 1a9537f01f This is a list of "characters" that do not establish independent notability from the Sims series. They are not really characters, but rather generic "units" given names and very basic details in order to make the games not feel entirely empty when they are loaded up. The games themselves have no actual storylines and the characters can be deleted and replaced in five minutes. They don't require any coverage in the main articles, so they definitely don't need a separate list. In the 15th century, commonplace books, popular in England, emerged as a way to compile information that included recipes, quotations, letters, poems, and more. Each commonplace book was unique to its creator's particular interests. Friendship albums became popular in the 16th century. These albums were used much like modern day yearbooks, where friends or patrons would enter their names, titles and short texts or illustrations at the request of the album's owner. These albums were often created as souvenirs of European tours and would contain local memorabilia including coats of arms or works of art commissioned by local artisans.
