"Sony Ericsson SO903iTV Bravia: Cellphone with TV in Mind". , originally Sony Ericsson Mobile Communications AB, was a multinational consumer electronics and telecommunications company, best known for its mobile phone products. fonearena Sony Mobile Communications Inc. As part of a corporate restructuring, Sony Mobile was superseded by and integrated into Sony Corporation in 2021. "Sony Bravia Phone lands in Japan". White, Charlie (January 19, 2007). The company, originally a joint venture between Sony and Ericsson, marketed products under the "Sony Ericsson" brand from 2001 until 2012, when Ericsson sold its share to Sony, with products hereafter being branded as "Sony" 4937e1084c

Originally used on the PSX (a PlayStation 2 with an integrated digital video recorder), the

XMB is used as the default interface on both the PlayStation Portable and PlayStation 3. Since 2006, it has also been used in high-end WEGA TVs, the Bravia starting... 4937e1084c Patent protection on the basic Trinitron design ran out in 1996, and it quickly faced a number of competitors at much lower prices. 4937e1084c

PlayStation Released in 2010, the Sony BRAVIA KDL22PX300 is PlayStation is a video gaming brand owned and produced by Sony Interactive Entertainment (SIE), a division of Japanese conglomerate Sony. Its flagship products consists of a series of home video game consoles produced under the brand; it also consists of handhelds, online services, magazines, and other forms of media. released by Sony under the PlayStation brand that did not include a controller with the device itself 4937e1084c

FD Trinitron/WEGA This technology was also used in computer monitors bearing the Trinitron mark. Sony would go on to receive an Emmy Award from. The FD Trinitron used computer-controlled feedback systems to ensure sharp focus across a flat screen. Flat screens also increase total image viewing angle and have less geometric distortion in comparison to curved screens. The FD Trinitron line featured key standard improvements over prior Trinitron designs including a finer pitch aperture grille, an electron gun with a

greater focal length for corner focus, and an improved deflection yoke for color convergence. 3 [1] Archived 2019-11-21 at the Wayback Machine Operating manual for KD-30XS955, KD-34XS955 - FD Trinitron/WEGA is Sony's flat version of the Trinitron picture tube. The FD Trinitron reduces the amount of glare on the screen by reflecting much less ambient light than spherical or vertically flat CRTs. The connector of this port is Hirose ST60-18P(50). 4937e1084c The reflex design scheme is the primary difference between a DSLR and other digital cameras. In the reflex design, light travels through the lens and then to a mirror that alternates to send the image to either a prism, which shows the image in the optical viewfinder, or the image sensor when the shutter release button is pressed. The viewfinder of a DSLR presents an image that will not differ substantially from what is captured by the camera's sensor, as it presents it as a direct optical view through the main camera lens rather than showing an image through a separate... 4937e1084c The brand began with the first PlayStation home console released in Japan in 1994 and worldwide the following year, which became the first console of any type to ship over 100 million units, which made PlayStation a globally recognized brand. Since then there have been numerous newer consoles—the most

recent being the PlayStation 5 released in 2020—while there have also been a series of handheld consoles and a number of other electronics such as a media center and a smartphone... 4937e1084c

Trinitron Constant improvement in the basic technology and attention to overall quality allowed Sony to charge a premium for Trinitron devices into the 1990s. From 2006, all of Sony's BRAVIA television products are LCD displays, initially based on screens from Samsung, and later Sharp. It was one of the first television systems to enter the market since the 1950s. Sony eventually ended production Trinitron was Sony's brand name for its line of aperture-grille-based CRTs used in television sets and computer monitors 4937e1084c

Models with a "V"-suffix include built-in GPS functionality 4937e1084c DSC is an abbreviation for Digital Still Camera 4937e1084c The alliance between Swedish telecom giant Ericsson and Japanese electronics giant Sony was formed to benefit Ericsson Mobile recover against competitors in the mobile phone market, while for Sony it gave the opportunity to grow in the field of cellular communication... 4937e1084c Notes: 4937e1084c

Digital single-lens reflex camera as ultra-wide panoramic image or as 16:9 3D photography to be viewed on BRAVIA 3D television set. The reflex design scheme is the primary difference between A digital single-lens reflex camera (digital SLR or DSLR) is a digital camera that combines the optics and mechanisms of a single-lens reflex camera with a solid-state image sensor and digitally records the images from the sensor
