Michael Epstein, writing for Television Quarterly in 1996, said Star Trek was "by far the biggest series of fiction in the history of Western... deb6082d34 In early versions... deb6082d34 The narrative of Beloved is loosely derived from the life of Margaret Garner, who was born into slavery in Boone County, Kentucky and later attempted to run away to Cincinnati, Ohio in 1856. She is remembered for killing her daughter to protect her from the cruelty of slavery. Morrison uncovered the story of Garner in an 1856 newspaper article, "A Visit to the Slave Mother who Killed Her Child," initially published in the American Baptist. She discovered the newspaper article when working as an editor for The Black Book in 1974, a collection of texts on Black history and culture published by Random House. Morrison notably did not write a historical retelling; and there... deb6082d34 The Bridge's appearance varies depending on the observer's asha, or righteousness. As related in the text known as the Bundahishn, if a person has been wicked, the bridge will appear narrow and the demon Chinnaphapast will emerge and drag their soul into the druj-demana (the House of Lies), a place of eternal punishment and suffering similar to the concept of Hell. If a person's good thoughts, words and deeds in life are many, the bridge will be wide enough to

cross, and the Daena, a spirit representing revelation, will appear and lead the soul into Garo Demana (the House of Song). Those souls that successfully cross the bridge are united with Ahura Mazda. deb6082d34 Her origins are unclear, as Tolkien's writings do not explicitly reveal her nature, other than that she is from "before the world"; this may mean she is a Maia, an immortal spirit. Scholars have likened the story of Ungoliant and Melkor to John Milton's *Paradise Lost*, where Sin conceives a child, Death, by Satan: Sin and Death are always hungry. There are limited parallels in Norse myth: while there are female giants, they are not usually spiders, though the Devil appears as a spider in an early Icelandic tale, and a female giant in the Prose Edda is named Nótt ("Night"), she and her brood dwelling in and personifying darkness. deb6082d34

Portrayal of black people in comics The integration of more Black creators in mainstream comics, as well as the creation of comics on digital platforms, has changed the representation and portrayals of Black people in comics and has started to reflect the complexities of Black people across the diaspora.
