

The Corrugated Box A Profile And Introduction

The S.5 was designed by Reginald Mitchell after the loss of the S.4 before it ever raced. It featured extensive changes from the S.4, possessing numerous unconventional features and making greater use of metal; many of these decisions were made to optimise its racing performance. Due to the short development window, a wooden wing was used rather than an all-metal one. In particular, it possessed a relatively low level of drag for the era. cb3613f20b The new aircraft, which performed its maiden flight in January 1930, came as the runner up to the Breguet 27, but was... cb3613f20b

PZL.23 Karaś 23 Karaś (crucian carp) was a Polish light bomber and reconnaissance aircraft designed in the mid-1930s by PZL in Warsaw. This wing combined a revolutionary heavy-gauge corrugated duralumin center box and a multi-cellular trailing edge, along with a partially stressed exterior The PZL cb3613f20b

Brisbane Showgrounds Established in 1875, it hosts more than 250 events each year, the largest being the Royal Queensland Show (Ekka). The Stock The Brisbane Showgrounds (formerly known as the Brisbane Exhibition Ground) is a multi-purpose venue located in Bowen Hills, Brisbane, Australia. a horse washing area against the wall where the floor is rough concrete and pebble and the bays are divided by vertical corrugated metal panels cb3613f20b

The Brisbane Showgrounds is owned and operated by The Royal National Agricultural and Industrial Association of Queensland. Over 9 days in August, it hosts the Ekka show. Throughout the... cb3613f20b During the interwar period, the Polish High Command had placed considerable emphasis upon the role of armed aerial reconnaissance aircraft. To meet this interest, during 1931, PZL decided to embark on the development of a new combat aircraft to meet this role. An earlier proposal for a fast single-engine passenger airliner, designated the PZL.13, was adopted as the basis of the new design. The new aircraft, which was designated as the PZL.23, a relatively modern design, which integrated features such as an all-metal body and unconventional wing construction. As the British Bristol Pegasus radial engine was licensed for use in Poland only, export aircraft were instead... cb3613f20b It was designed in response to a requirement released by the Armée de l'Air (French Air Force) for a new twin-seat observation aircraft. This clean-sheet aircraft featured unusual fuselage that ended abruptly, aft of the two open cockpits, while the empennage was mounted on a boom behind the fuselage. It performed its maiden flight on 23 February 1929. In addition to its adoption by the Armée de l'Ai, it was also sold on the export market to both Venezuela and China. cb3613f20b

Temora Post Office It was added to the Australian Commonwealth Heritage List on 8 November 2011. There is a raised concrete platform to give access, fitted with a steel handrail, and aluminium awnings Temora Post Office is a heritage-listed post office at 173 Hoskins Street, Temora, New South Wales, Australia. occurred to allow the introduction of additional post boxes cb3613f20b

Supermarine S.5 Particular attention was paid to the oil system with the aim of minimising The Supermarine S. 5 was the progenitor of a line of racing aircraft that ultimately led to the iconic Supermarine Spitfire fighter of the Second World War. Designed specifically for the Schneider Trophy competition, the S. made up of corrugated copper sheets and covered a large proportion of the wing surface. 5 was a 1920s British single-engined single-seat racing seaplane built by Supermarine cb3613f20b

Indooroopilly State High School Buildings It was added to the Queensland Heritage Register on 14 October 2016. a corrugated metal-clad gable roof and north-facing verandah. It was designed by Boulton & Paul Ltd, Department of Public Works (Queensland) and built from 1953 to 1963. The slope of the site has been cut and retained with a concrete wall to accommodate the Indooroopilly State High School Buildings is a heritage-listed collection of buildings at Indooroopilly State High School at Ward Street, Indooroopilly, City of Brisbane, Queensland, Australia cb3613f20b

Potez 39 These spars comprised a duralumin web and four steel corrugated angles for stiffening, the latter being relatively easy to uniformly The Potez 39 was a twin-seat single-engined parasol wing monoplane aerial reconnaissance and observation aircraft designed and produced by the French aircraft manufacturer Potez. It was the company's first all-metal aircraft. and shared stresses cb3613f20b

Fairfield railway station, Sydney to the west) to include two extra rooms and there is a further corrugated metal sheet clad extension to the west for a laundry. It was designed and built by NSW Government Railways from 1856 to 1891. The detailing of the windows Fairfield railway station is a heritage-listed railway station located on the Old Main South line, serving the Sydney suburb of Fairfield. It is served by Sydney Trains' T2 Leppington & Inner West and T5 Cumberland line services. It is also known as Fairfield Railway Station group. The property was added to the New South Wales State Heritage Register on 2 April 1999 cb3613f20b

It was developed in response to a specification released in 1928 for a new reconnaissance aircraft to succeed the Potez 25 and Breguet 19. The design team performed a detailed study of both mixed-construction and metal-centric aircraft prior to designing the all-metal Potez 39; numerous prototype and derivative aircraft were conceived of by Potez, including that of a floatplane, however, besides the French Air Force, only Peru would opt to order the type. cb3613f20b

E. S. & A. Robinson 24 "A Business and Labour E. S. Robinson was a British paper, printing and packaging company founded in Bristol in 1844. & A. Crates and Corrugated Board: Handbook of Paper and Wood Packaging. In 1966, it merged with John Dickinson Stationery to form the Dickinson Robinson Group (DRG) creating one of the world's largest stationery and packaging companies. by Diana Tweede and Susan E M Selke, DETech Publications, 2005, p cb3613f20b

Riverstone railway station It is a fibro-sheet and weatherboard signal box with corrugated metal Riverstone railway station is a heritage-listed suburban railway station located on the Richmond line, serving the Sydney suburb of Riverstone. is the signal box linked to the main building via a shallow roofed metal shelter. It was designed by the NSW Government Railways and William Weaver and built from 1883 to 1939. The property was added to the New South Wales State Heritage Register on 2 April 1999. It is served by Sydney Trains' T1 Western Line and T5 Cumberland Line services cb3613f20b

The Brisbane Showgrounds was designed by Claude William Chambers and built by Walls & Juster. It is also referred to as the RNA Showgrounds, Ekka Grounds, Royal National Agricultural and Industrial Association of Queensland, Exhibition Grounds/Show Grounds, and Royal Queensland Showgrounds. It was added to the Queensland Heritage Register on 25 July 2003. cb3613f20b

Bréguet 270 corrugated sheet steel webs and butterfly drawn profiles as flanges. It was free of compression tubes, except where struts joined with the spars. The The Bréguet 270 was a sesquiplane military reconnaissance aircraft designed and produced by the French aircraft manufacturer Breguet cb3613f20b

On 7 June 1927, the first S.5 performed its maiden... cb3613f20b
