The list provides conventional glosses as established by standard inventories of glossing abbreviations such as the Leipzig Glossing rules, the most widely known standard. Synonymous glosses are listed as alternatives for reference purposes. In a few cases, long and short standard forms are listed, intended for texts where that gloss is rare or uncommon. 835d40d9cb Prefixes, like other affixes, can be either inflectional, creating a new form of a word with the same basic meaning and same lexical category, or derivational, creating a new word with a new semantic meaning and sometimes also a different lexical category. Prefixes, like all affixes, are usually bound morphemes. 835d40d9cb
