The original Golf Mk1 was a front-engined, front-wheel drive replacement for the air-cooled, rear-engined, rear-wheel drive Volkswagen Beetle. Historically, the Golf is Volkswagen's best-selling model and is among the world's top three best-selling models, with more than 35 million units sold as of 2019. The Golf Mk5 was replaced in 2009 by the Golf Mk6, which is built on the same platform. The sport is usually played on a course with 9 or 18 holes, each consisting of a teeing area and target (basket). Players complete a hole by throwing a disc from a tee pad or tee area toward a basket, throwing again from where the previous throw came to rest, until the disc comes to rest in the designated basket. Disc golf targets are composed of a metal basket supported by a center pole, with chains hanging from an upper band. They are designed to catch the incoming discs, which then fall into the basket.
