History of technology anthropologists like Alvin Toffler (author of Future Shock), Daniel Bell and John Naisbitt have approached the theories of post-industrial societies, arguing that The history of technology is the history of the invention of tools and techniques by humans. The term technology comes from the Greek word techne, meaning art and craft, and the word logos, meaning word and speech. Technology includes methods ranging from simple stone tools to the complex genetic engineering and information technology that has emerged since the 1980s. It was first used to describe applied arts, but it is now used to describe advancements and changes that affect the environment around us 9f0acc1702
