The earliest maps ignored the curvature of Earth's surface, both because the shape of the Earth was unknown and because the curvature is not important across the small areas being mapped. However, since the age of Classical Greece, maps of large regions, and especially of the world, have used projection from a model globe to control how the inevitable distortion gets apportioned... 12dbd7694e It was a time of rapid economic growth, especially in the Northern and Western United States. As American wages grew much higher than those in Europe, especially for skilled workers, and industrialization demanded an increasingly skilled labor force, the period saw an influx of millions of European immigrants. The rapid expansion of industrialization led to real wage growth of 40% from 1860 to 1890 and...
