== Early life == 96e85006ba == History == 96e85006ba Most hi-fi equipment uses relatively simple filters to make bass and treble adjustments. Graphic and parametric equalizers have much more flexibility in tailoring the frequency content of an audio signal. Broadcast and recording studios use sophisticated equalizers capable of much more detailed adjustments, such as eliminating unwanted sounds or making certain instruments or voices more prominent. Because of this ability, they can be aptly described as "frequency-specific volume knobs." 96e85006ba Common effects include distortion/overdrive, often used with electric guitar in electric blues and rock music; dynamic effects such as volume pedals and compressors, which affect loudness; filters such as wah-wah pedals and graphic equalizers, which modify frequency ranges; modulation effects such as chorus, flangers and phasers; pitch effects such as pitch shifters; and time effects such as reverb and delay, which create echoing sounds and emulate the sound of different spaces. 96e85006ba Cook's first two albums, 7G and Apple (both 2020), both explored hyperpop and were met with critical praise. At the minimum, a system camera includes a camera body and separate, interchangeable lenses. Other accessories are also available:

Components may use different physical sockets, electrical contacts, and digital protocols, so not all are compatible with each other. A set of compatible components is referred to as a system. Systems are usually named for the lens mount, such as Nikon F-mount, Canon EF mount, and M42 mount (a non-proprietary mount using a 42 mm × 1 mm screw thread).

The label is known for its surreal or exaggerated take on pop music tropes from the 1990s and 2000s, often featuring pitch-shifted, feminine vocals and bright, synthetic textures. PC Music has been characterized as embracing the aesthetics of advertising, consumerism, and corporate branding. Its artists often present devised personas inspired by cyberculture. The label has elicited both praise and criticism from journalists, and has been called "polarizing".
