List of TCP and UDP port numbers "Reading and Transit Servers". Network News Transfer Protocol (NNTP). Acknowledgements to NNTP Working Group (Russ Allbery, Ned Freed), Brian Kantor This is a list of TCP and UDP port numbers used by protocols for operation of network applications. TCP usually uses port numbers that match the services of the corresponding UDP implementations, if they exist, and vice versa. List of datasets for machine-learning research "Cuff-less high-accuracy calibration-free blood pressure estimation using pulse transit time". Mahdi (2015). Major advances in this field can result from advances in learning algorithms (such as deep learning), computer hardware, and, less-intuitively, the availability of high-quality training datasets. High-quality labeled training datasets for supervised and semi-supervised machine learning algorithms are usually difficult and expensive to produce because of the large amount of time needed to label the data. Datasets are an integral part of the field of machine learning. 2015 IEEE International Symposium on Circuits These datasets are used in machine learning (ML) research and have been cited in peer-reviewed academic journals. Although they do not need to be labeled, high-quality

datasets for unsupervised learning can also be difficult and costly to produce 256986da0e
