Control Panel has been part of Microsoft Windows since Windows 1.0, with each successive version introducing new applets. Beginning with Windows 95, the Control Panel is implemented as a special folder (i.e. the folder does not physically exist), and as such only contains shortcuts to various applets such as Add or Remove Programs and Internet Options. Physically, these applets are stored as .cpl files so that they can be shown on the Control Panel. For example, the Add or Remove Programs applet is stored under the name appwiz.cpl in the SYSTEM32 folder. 608713c140
