List of The Nature of Things episodes It debuted on CBC Television on November 6, 1960. Many of the programs document nature and the effect that humans have on it. The program "was one of the first mainstream programs to present scientific evidence on a number of environmental issues, including nuclear power and genetic engineering". Host David Suzuki presents film footage of the reproductive process of mitosis, the first division of an egg that initiates the process of reproducing The Nature of Things (also, The Nature of Things with David Suzuki) is a Canadian television series of documentary programs 04690021d3

<< Apr | May | Jun >> 04690021d3 A neural network consists of connected units or nodes called artificial neurons, which loosely model the neurons in the brain. Artificial neuron models that mimic biological neurons more closely have also been recently investigated and shown to significantly improve performance. These are connected by edges, which model the synapses in the brain. Each artificial neuron receives signals from connected neurons, then processes them and sends a signal to other connected neurons. The "signal" is a real number, and the output of each neuron is computed by some non-linear function of the totality... 04690021d3 Miscellaneous 04690021d3 This page contains discussions that have been archived from Village pump (technical).
