Money was historically an emergent market phenomenon that possessed intrinsic value as a commodity; nearly all contemporary money systems are based on unbacked fiat money without use value. Its value is consequently derived by social convention, having been declared by a government or regulatory entity to be legal tender; that is, it must be accepted as a form of payment within the boundaries of the country, for "all debts, public and private", in the case... e51a180025

Money laundering As financial crime has become more complex and financial intelligence is more important in combating international crime and terrorism, money laundering has become a prominent political, economic, and legal debate. Money laundering is the process of illegally concealing the origin of money obtained from illicit activities (often known as dirty money) such as drug Money laundering is the process of illegally concealing the origin of money obtained from illicit activities (often known as dirty money) such as drug trafficking, sex work, terrorism, corruption, and embezzlement, and converting the funds into a seemingly legitimate source, usually through a front organization. Money laundering is ipso facto illegal; the acts generating the money almost always are themselves criminal in some way (for if not, the money would not need to be laundered). Most countries implement some anti-money-laundering measures e51a180025
