Goal setting "Gary Goal setting involves the development of an action plan designed in order to motivate and guide a person or group toward a goal. understanding and use of goal theory in the coaching community, and this point has important implications for coaching research, teaching and practice. Goal setting is a major component of personal-development and management literature. Therefore, setting goals means that a person has committed thought, emotion, and behavior towards attaining the goal. Locke and his colleagues, most notably, Gary Latham have shown that more specific and ambitious goals lead to more performance improvement. Goal setting can be guided by goal-setting criteria (or rules) such as SMART criteria. In doing so, the goal setter has established a desired future state which differs from their current state thus creating a

mismatch which in turn spurs future actions. Studies by Edwin A. Goals are more deliberate than desires and momentary intentions bbfde1f79a
