Wikipedia:Language learning centre/Word list regurgitate regurgitated regurgitating regurgitation rehabilitate
 rehabilitated rehabilitating rehabilitation rehash rehashed rehashes rehashing reheard rehearing Drawing up a
 comprehensive list of words in English is important as a reference when learning a language as it will show the
 equivalent words you need to learn in the other language to achieve fluency. Eventually these words will all be
 translated into big lists in many different languages and using the words in phrase contexts as a resource. A big
 list will constantly show you what words you don't know and what you need to work on and is useful for testing
 yourself. You can use the list to generate your own lists in whatever language you're learning and to test
 yourself 02b4994a81

Cochlear implant With the help of therapy, cochlear implants may allow for improved speech understanding in
 both quiet and noisy environments. Through everyday listening and auditory training, cochlear implants allow
 both children and adults to learn to interpret those signals as speech and sound. expectations, exposure to
 speech stimuli and consistent participation in aural rehabilitation programs. A 2016 systematic review of CI for
 people with unilateral A cochlear implant (CI) is a surgically implanted neuroprosthesis that provides a person
 who has moderate-to-profound sensorineural hearing loss with sound perception. A CI bypasses acoustic hearing
 by direct electrical stimulation of the auditory nerve 02b4994a81

The implant has two main components. The outside component is generally worn behind the ear, but could also
 be attached to clothing, for example, in young children. This component, the sound processor, contains
 microphones, electronics that include digital signal... 02b4994a81 34 02b4994a81 160 02b4994a81 149
