The book relates Earth to a spaceship flying through space. Noting the lack of any user manual to help Earthians steward this ship, Fuller offers some reflections, prognostications, and guidance, based on contemporary concepts of linked relationships, that may help in the understanding, management, sustainment, and creation of a plan to preserve spaceship earth for the future of humanity. The spaceship has a finite amount of resources and cannot be resupplied.

Calculagraph gear-based set of three printing wheels, which print on standardized accounting tickets. Later, until the advent of the digital era, they became the standard way to clock the duration of toll telephone calls. One of the wheels presents a clock face, and indicates the time. The Calculagraph is a device which mechanically calculates and prints the elapsed time between two events. Their best known, earliest use was as a means of tracking of table usage in pool halls.
