Descent II Destination Quartzon was bundled software with hardware such as the Logitech WingMan Extreme joystick and Diamond Multimedia video cards with the Voodoo Graphics Descent II is a 1996 first-person shooter game developed by Parallax Software and first published for MS-DOS by Interplay Productions. The player controls a

spaceship from the pilot's perspective and must navigate extrasolar underground mines to locate and destroy their reactors and escape being caught in their self-destructions, while engaging and surviving infected robots, which will attempt to destroy the ship. Unlike other first-person shooters, its six-degrees-of-freedom scheme allows the player to move and rotate in any three-dimensional space and direction. A version for the PlayStation was released under the title Descent Maximum. It is the second installment in the Descent video game series and the sequel to Descent
