The media-reported value for the speed agreement in miles per hour was consistently 186 mph, while in kilometers per hour it varied from 299 to 303 km/h, which is typical given unit conversion rounding errors. This figure may also be affected by a number of external factors, as can the power and torque values. c687d2d4d2 Directory of WikiProjects c687d2d4d2 Scope of the WikiProject c687d2d4d2 (For more information on WikiProjects, please see Wikipedia:WikiProject and the Guide to WikiProjects). c687d2d4d2
