Institutional economics Its original Institutional economics focuses on understanding the role of the evolutionary process and the role of institutions in shaping economic behavior. Its name and core elements trace back to a 1919 American Economic Review article by Walton H. Institutional economics focuses on understanding the role of the evolutionary process and the role of institutions in shaping economic behavior. Institutional economics emphasizes a broader study of institutions and views markets as a result of the complex interaction of these various institutions (e. individuals, firms, states, social norms). The earlier tradition continues today as a leading heterodox approach to economics. Its original focus lay in Thorstein Veblen's instinct-oriented dichotomy between technology on the one side and the "ceremonial" sphere of society on the other. g. Hamilton 42346773a9
