The term "translation studies" was coined by the Amsterdam-based American scholar James S. Holmes in his 1972 paper "The name and nature of translation studies", which is considered a foundational statement for the discipline. Writers in English occasionally use the term "translatology" (and less commonly "traductology") to refer to translation studies, and the corresponding French... A translator always risks inadvertently introducing source-language words, grammar, or syntax into the target-language rendering. On the other hand, such "spill-overs" have sometimes imported useful source-language calques and loanwords that have enriched target languages. Translators, including early translators of sacred texts, have helped shape... The main issues that cultural translation must solve consist of translating a text as showing the cultural differences of that text while also respecting the source culture as well.
