Park published the first Junie B. Jones book in 1992 and continued writing them alongside her other projects. They were contrasted by more serious books released around the same time, Mick Harte Was Here (1995) about the death of a sibling, and The Graduation of Jake Moon (2000) about dealing with a loved one developing Alzheimer's disease. I'd like both help and eyes on this article (someone suggested on the talk page it be deleted as a '15 minutes of fame' article, but I'm not sure that would fly.). Dougweller (talk) 05:42, 4 September 2011 (UTC) 0ce08843e2 I'd forgotten the AfD (linked on the talk page) which are worth reading. There have been some basic changes since the last AfD, see [1] which have changed the article's pov. The assault that the story is based on is probably not notable enough for its own article. So the logical solution is to merge with May Day, using the newspaper sources to write up a paragraph, at most, in the USA section. It's not a notable topic in its own right, having only surfaced to national attention on this one occasion, and to international attention never.
