A wiper generally consists of a metal arm; one end pivots, and the other end has a long rubber blade attached to it. The arm is powered by a motor, often an electric motor, although pneumatic power is also used for some vehicles. The blade is swung back and forth over the glass, pushing water, other precipitation, or any other impediments to visibility from its surface. The speed is usually adjustable... The original B5 version was produced only as an Avant, Audi's name for an estate car/station wagon. The second version, the B7, was released initially as a four-door five-seat saloon/sedan, with the Avant following a short while later. A two-door four-seat Cabriolet version was subsequently added. The "RS" initials are taken from the German RennSport—literally translated as "racing sport", and is the Audi marque's highest trim level, positioned... Augmented reality In this way, augmented reality alters one's ongoing perception of a real-world environment, compared to virtual reality, which aims to completely replace the user's real-world environment with a simulated one. This experience is seamlessly interwoven with the physical world such that it is perceived as an immersive aspect of the real environment. front of the driver. Major car manufacturers such as General Motors, Toyota, Audi, and BMW have since included some form of head-up display in certain models Augmented reality (AR), also known as mixed reality (MR), is a technology that overlays real-time 3D-rendered computer graphics onto a portion of the real world through a display, such as a handheld device or head-mounted display. Augmented reality is typically visual, but can span multiple sensory modalities, including auditory, haptic, and somatosensory

Assured clear distance ahead The rule is a precautionary trivial burden required to avert the great probable gravity of precious life loss and momentous damage. It is one of the most fundamental principles governing ordinary care and the duty of care for all methods of conveyance, and is frequently used to determine if a driver is in proper control and is a nearly universally implicit consideration in vehicular accident liability. Satisfying the ACDA rule is necessary but not sufficient to comply with the more generalized basic speed law, and accordingly, it may be used as both. How about an Audi A8, a Mercedes S-500, or a Lexus LS. Nope. way to show clients you have won a lot of high-worth cases.
