× giganteus' perennial nature, its ability to
grow on marginal land, its water efficiency,
non-invasiveness, low fertilizer needs,
significant carbon sequestration and high
yield have sparked significant interest
among researchers, with some arguing that
it has "ideal" energy crop properties. Some
argue that it can provide negative
emissions, while others highlight its water
cleaning and soil enhancing qualities...

Sexual harassment Harassment may be explicit or implicit, with some examples including making unwanted sexually colored remarks, actions that insult and degrade by gender, showing pornography, demanding or requesting sexual favors, offensive sexual advances, and any other unwelcome physical, verbal, or non-verbal (sometimes provocative) conduct based on sex. The Nationwide Crime Victimization Survey (NCVS) annually Sexual harassment is a type of harassment based on the sex or gender of a victim. Sexual harassment includes a range of actions from verbal transgressions to sexual abuse or assault. Harassment can occur in many different social settings such as the workplace, the home, school, or religious institutions. Survey (NCVS) built on the critiques from the past survey and built a brand-new methodological tool. It can involve offensive sexist or sexual behavior, verbal or physical actions, up to bribery, coercion, and assault. Harassers or victims can be of any

Miscanthus × giganteus Just like Pennisetum purpureum, Arundo donax and Saccharum ravennae, it is also called elephant grass. It is a perennial grass with bamboo-like stems that can grow to heights of 3–4 metres (13 ft) in one season (from the third season onwards). According to IEA Bioenergy it has a combined net thermal efficiency of 107% (NCV). Plants sequester carbon through photosynthesis, a sunlight-driven process Miscanthus × giganteus, also known as the giant miscanthus, is a sterile hybrid of Miscanthus sinensis and Miscanthus sacchariflorus bf04619826

Forensic science In that survey Forensic science, often confused with criminalistics,

is the application of science principles and methods to support decision-making related to rules or law, generally specifically criminal and civil law. 2016, there was a survey called the National Crime Victimization Survey (NCVS) that was provided by the US Bureau of Justice Statistics bf04619826

bf04619826 73 bf04619826 In general
usage, the school-leaving exams, which are government-administered, are known as the "matric exams"; by extension, students in the final year of high school (grade 12) are known as "matriculants" or, more commonly, "matrics". Once the Matric year has been passed, students are said to have "matriculated". bf04619826 6 bf04619826

Matriculation in South Africa The first formal examination was conducted in South Africa under the University of the Cape of Good Hope in 1858. Subjects are taken on the same level – the earlier higher/standard grade split In South Africa, matriculation (or matric) is the final year of high school and the qualification received on graduating from high school, and the minimum university entrance requirements. (National Senior Certificate) or the NCV (National Certificate Vocational) bf04619826
