Reading comprehension Comprehension specifically is a "creative, multifaceted process" that is dependent upon four language skills: phonology, syntax, semantics, and pragmatics. Reading comprehension occurs on a gradient or spectrum, rather than being yes/no (all-or-nothing). The opposite of reading comprehension is called functional illiteracy. In education it is measured in standardized tests that report which percentile a reader's ability falls.

comprehension is the ability to process written text, understand its meaning, and to integrate with what the reader already knows. Reading comprehension is the ability to process written text, understand its meaning, and to integrate with what the reader already knows. Reading comprehension is beyond basic literacy alone, which is the ability to decipher characters and words at all. Reading comprehension relies on two abilities that are connected to each other: word reading and language comprehension c987bccca9

Other types of reading and writing, such as pictograms (e.g., a hazard symbol and an emoji), are not based on speech-based writing systems. The common link is the interpretation of symbols to extract the meaning from the visual notations or tactile signals (as in the case of braille). c987bccca9
