Antikythera mechanism It could also be used to track the four-year cycle of athletic games similar to an olympiad, the cycle of the ancient Olympic Games. The dial also marks the position of the Sun on the ecliptic, corresponding to the current date in the year. It is the oldest known example of an analogue computer. It could be used to predict astronomical positions and eclipses decades in advance. lunisolar intercalation. Drowning An incident of drowning can also cause further complications for victims due to low body temperature, aspiration, or acute respiratory distress syndrome (respiratory failure from lung inflammation). Occasionally, victims may not begin experiencing these symptoms until several hours after they are rescued. intercalated series of 30 chest compressions, they are also applied by pressing on the lower half of the sternum, the vertical bone of the middle of the Drowning is a type of suffocation induced by the submersion of the mouth and nose in a liquid. Submersion injury refers to both drowning and near-miss incidents. Most instances of fatal drowning occur alone or in situations where others present are either unaware of the victim's situation or unable to offer assistance. After successful resuscitation, drowning victims may experience breathing problems, confusion, or unconsciousness 10b849e7f1
