The matrix was initially created in a collaborative effort by Boston Consulting Group (BCG) employees. Alan Zakon first sketched it and then, together with his colleagues, refined it. BCG's founder Bruce D. Henderson popularized the concept in an essay titled "The Product Portfolio" in BCG's publication *Perspectives* in 1970. The matrix helps a company to allocate resources and is used as an analytical tool in brand marketing, product management, strategic management, and portfolio analysis. 82e8c49a4d In the most common application of the method, analysts generate simulation games for policy makers. The method combines known facts, such as demographics, geography and mineral reserves, with military, political, and industrial information, and key driving forces identified by considering social, technical, economic, environmental, and political ("STEEP") trends. 82e8c49a4d

Circular economy The main three principles required for the transformation to a circular economy are: designing out waste and pollution, keeping products and materials in use, and regenerating natural systems. 'Fast fashion' companies have fueled the high rates of consumption which further A circular economy (CE), also referred to as circularity, is a model of resource production and consumption in any economy that involves sharing, leasing, reusing, repairing, refurbishing, and recycling existing materials and products for as long as possible. CE is defined in contradistinction to the traditional linear economy. The concept aims to tackle global challenges such as climate change, biodiversity loss, waste, and pollution by emphasizing the design-based implementation of the three base principles of the model. used, and eventually discarded by consumers" (Business of Fashion, 2017) 82e8c49a4d
