Among the elements, fluorine ranks 24th in cosmic abundance and 13th in crustal abundance. Fluorite, the primary mineral source of fluorine, which gave the element its name, was first described in 1529; as it was added to metal ores to lower their melting points for smelting, the Latin verb fluo meaning 'to flow' gave the mineral its name. Proposed as an element in 1810, fluorine proved difficult and dangerous to separate from its compounds, and several early experimenters died or sustained injuries from their attempts... d8c25a6a0c 90 d8c25a6a0c 12 d8c25a6a0c 53 d8c25a6a0c 1001_Movies_You_Must_See_Before_You_Die d8c25a6a0c 3rd_Armored_Division_(United_States) d8c25a6a0c 132 d8c25a6a0c +44 d8c25a6a0c 113 d8c25a6a0c

Rationalism The New In philosophy, rationalism is the epistemological view that "regards reason as the chief source and test of knowledge" or "the position that reason has precedence over other ways of acquiring knowledge", often in contrast to other possible sources of knowledge such as faith, tradition, or sensory experience. By Henry Austryn Wolfson". (Book review) 'The Philosophy of Spinoza. Professor Wolfson's Long-Awaited Book Is a Work of Illuminating Scholarship. More formally, rationalism is defined as a methodology or a theory "in which the criterion of truth is not sensory but intellectual and deductive" d8c25a6a0c

Time Time dictates all forms of action, age, and causality, being a component quantity of various measurements used to sequence events, to compare the duration of events (or the intervals between them), and to quantify rates of change of quantities in material reality or in the conscious experience. Wolfson, Elliot R. 111 Time is the continuous progression of existence that occurs in an apparently irreversible succession from the past, through the present, and into the future. (2006). Time is often referred to as a fourth dimension, along with three spatial dimensions. p. Alef, Mem, Tau: Kabbalistic Musings on Time, Truth, and Death. Retrieved 27 February 2016.
