Early telecommunication networks used metal wires as the medium for transmitting signals. These networks were used for telegraphy and telephony for many decades. In the first decade of the 20th century, a revolution... d40783889f

Streaming media subscription services such as Netflix tends to have a higher production budget than content produced exclusively for pay-per-view services, such as Amazon. Streaming media refers to multimedia delivered through a network for playback using a media player. Streaming is more commonly used for video on demand, streaming television, and music streaming services over the Internet. Media is transferred in a stream of packets from a server to a client and is rendered in real-time; this
