Computer-assisted translation pre-editing and post-editing). Language search Computer-aided translation (CAT), also referred to as computer-assisted translation or computer-aided human translation (CAHT), is the use of software, also known as a translator, to assist a human translator in the translation process. find previously translated sentence fragments, phrases, whole sentences, even complete paragraphs that match source document segments. g. The translation is created by a human, and certain aspects of the process are facilitated by software; this is in contrast with machine translation (MT), in which the translation is created by a computer, optionally with some human intervention

In (1), the quantified DP is each manager, and the bound variable pronoun is him. It is a bound variable pronoun because it does not refer to one single entity in the world. Rather, its reference varies depending on which entities are encompassed by the phrase each manager. For example, if each manager encompasses both John and Adam, then him will refer variably to both John and Adam. The meaning of this sentence in this case would then be: The Czech orthography is considered the model for many other Balto-Slavic languages using the Latin alphabet; Slovak orthography being its... Linguistic development of Genie sentences such as, "The girl opened the umbrella"; Genie was only correct 50% of the time, but was almost perfect with past tense completive sentences When the circumstances of Genie, the primary victim in one of the most severe cases of abuse, neglect and social isolation on record in medical literature, first became known in early November 1970, authorities arranged for her admission to Children's Hospital Los Angeles, where doctors determined that at the age of 13 years and 7 months, she had not acquired a first language. Their efforts soon caught the attention of linguists, who saw her as an important way to gain further insight into acquisition of language skills and linguistic development. Hospital staff then began teaching Genie to speak General American English, which she gradually began to learn and use. Starting in late May 1971, UCLA professor Victoria Fromkin headed a team of linguists who began a detailed case study on Genie

Kangxi Dictionary standard or model characters, as to show their correct forms and authoritative pronunciations. In today's vernacular written Chinese, fewer than a quarter. Wanting an improvement upon earlier dictionaries, as well as to show his concern for Confucian culture and to foster standardization of the Chinese writing system, its compilation was ordered by the Kangxi Emperor in 1710, from whom the compendium gets its name. The dictionary was the largest of its kind, containing 47,043 character entries. Around 40% of them were graphical variants, while others were dead, archaic, or found only once in the Classical Chinese corpus. The compendium was generally referred to simply as zidian The Kangxi Dictionary (Chinese: 康熙字典; pinyin: Kāngxī zìdiǎn) is a Chinese dictionary published in 1716 during the High Qing, considered from the time of its publishing until the early 20th century to be the most authoritative reference for written Chinese characters

Pun A pun differs from a malapropism in that a malapropism is an incorrect variation on a correct expression, while a pun involves expressions with multiple (correct or fairly reasonable) interpretations. These ambiguities can arise from the intentional use of homophonic, homographic, metonymic, or figurative language. example, the Roman playwright Plautus was famous for his puns and word games. Puns may be regarded as in-jokes or idiomatic constructions, especially as their usage and meaning are usually specific to a particular language or its culture. A homophonic pun is one that uses word pairs which sound alike (homophones) but A pun, also known as a paronomasia in the context of linguistics, is a form of word play that exploits multiple meanings of a term, or of similar-sounding words, for an intended humorous or rhetorical effect 6506225c1e
