Until the 20th century, publishing houses and printers in many countries used additional space between sentences. There were exceptions to this traditional spacing method – some printers used spacing between sentences that was no wider than word spacing. This was French spacing, synonymous with single-space sentence spacing until the late 20th century. With the introduction of the typewriter in the late... 0410c3922f This list is a combination of the twenty page-by-page "List of Latin phrases" articles: 0410c3922f

Sentence spacing Retrieved 16 May 2010. Modern Humanities Research Association (2002). Since the introduction of movable-type printing in Europe, various sentence spacing conventions have been used in languages with a Latin alphabet. These include a normal word space (as between the words in a sentence), a single enlarged space, and two full spaces. MHRA Style Guide: A Handbook for Authors Sentence spacing concerns how spaces are inserted between sentences in typeset text and is a matter of typographical convention.
