Originally known as Turner's Point, a post office and school were established in 1858. In 1876, the community was renamed Poetry. The new name was suggested by local merchant Maston Ussery, who said that the area in springtime reminded him of a poem. Poetry's population peaked at around 234 in 1904. Its post office closed in 1905 and service was consolidated within nearby Terrell. A 1984 incorporation vote was approved by local residents but was invalidated by the Kaufman County Commissioners Court due to technicalities. Today, Poetry is a widely dispersed, lightly populated community. 601c55520a The definition can also be extended to include not just oral epics, but latrinalia, many forms of childlore (skipping-rope rhymes, the words of counting-out games etc.), and limericks; as well as including anonymous or improvised poems. 601c55520a In 2017, members of the SFPA voted to rename the organization the "Science... 601c55520a Much of the Romantic poetry of the 19th century used techniques that are seen in modern fantasy literature such as... 601c55520a

The rhymed poetry falls within fifteen different meters collected and explained by al-Farahidi in The Science of 'Arud. Al-Akhfash, a student of al-Farahidi, later added one more meter to make them sixteen. The meters of the rhythmical poetry are known in Arabic as "seas" (buḥūr). The measuring unit of seas is known as "tafīlah," and every sea contains a certain number of tafīlas which the poet has to observe in every verse (bayt) of the poem. The measuring procedure of a poem is very rigorous. Sometimes adding or removing a consonant or a vowel can shift the bayt from one meter to another. Also, in rhymed poetry, every bayt has to end with the same rhyme (qāfiyah) throughout the poem. 601c55520a

Poetry Poets use a variety of techniques called poetic devices, such as assonance, alliteration, consonance, euphony and cacophony, onomatopoeia, rhythm (via metre), rhyme schemes (patterns in the type and placement of a phoneme group) and sound symbolism, to produce musical or other artistic effects. Poetic structures vary dramatically by language and cultural convention, but they often rely on rhythmic metre: patterns of syllable stress or syllable (or mora) weight. Poetry (from the Greek word poiesis, "making") is a form of literary art that uses aesthetic and often rhythmic qualities of language to evoke meanings Poetry (from the Greek word poiesis, "making") is a form of literary art that uses aesthetic and often rhythmic qualities of language to evoke meanings in addition to, or in place of, literal or surface-level meanings. Poetic structures may even be semantic (e. A particular instance of poetry is a poem and is written by a poet. the volta required in a Petrarchan sonnet). They may also use repeating patterns of phonemes, phoneme groups, tones, words, or entire phrases. They also frequently organize these devices into poetic structures, which may be strict or loose, conventional or invented by the poet. g 601c55520a

Folk poetry in general has several characteristics. It may be informal and unofficial, generally lacks an owner and may "belong" to the society, and its telling may be an implicitly social activity. The term can refer to poems of an oral tradition that may date back many years; that is, it is information that has been transmitted over time (between generations) only in spoken (and non-written) form. Thus as an oral tradition folk poetry requires a performer to promulgate it over generations. 601c55520a Influential epics that have shaped Western literature and culture include Homer's Iliad and Odyssey; Virgil's Aeneid; and the anonymous Beowulf. The genre has inspired the adjective epic as well as derivative works in other mediums (such as epic films) that evoke or emulate the characteristics of epics. 601c55520a The SFPA was established as the Science Fiction Poetry Association in 1978 by author and linguist Suzette Haden Elgin. 601c55520a
