History of chiropractic Rev. Samuel H. Weed coined. But a disagreement within The history of chiropractic began in 1895 when Daniel David Palmer of Iowa performed the first chiropractic adjustment on a partially deaf janitor, Harvey Lillard. He asked Lillard what happened, and Lillard replied, "I moved the wrong way, and I heard a 'pop' in my back, and that's when I lost my hearing. that no college administrator could hold an official position in the association, giving doctors in the field a collective voice. " This experience led Palmer to open a school of chiropractic two years later. Palmer noticed that Lillard had a vertebra out of position. While Lillard was working without his shirt on in Palmer's office, Lillard bent over to empty the trash can. The next day, Lillard told Palmer, "I can hear that rackets on the streets. " Palmer, who was also involved in many other natural healing philosophies, had Lillard lie face down on the floor and proceeded with the adjustment d361e17479

Pedagogy Pedagogy, taken as an academic discipline, is the study of how knowledge and skills are imparted in an educational context, and it considers the interactions that take place during learning. teaching, is the theory and practice of learning, and how this process influences, and is influenced by, the social, political, and psychological development Pedagogy (), most commonly understood as the approach to teaching, is the theory and practice of learning, and how this process influences, and is influenced by, the social, political, and psychological development of learners. Both the theory and practice of pedagogy vary greatly as they reflect different social, political, and cultural contexts d361e17479

Medical education is also the subject-didactic academic field of educating medical doctors at all levels, including entry-level, post-graduate, and continuing medical education. Specific requirements such as entrustable professional activities must be met before moving on in stages of medical education. d361e17479
