

Cool Cars And Trucks

Fargo Trucks Later, Chrysler absorbed Dodge and started producing its truck line, so over time, Fargo trucks became rebadged Dodges, similar to the parallel sale by General Motors of its GMC and Chevrolet truck lines, as well as the Mercury truck brand used by Ford in Canada. The first Fargo trucks were built in Pilsen, Chicago, by the Fargo Motor Car Company from 1913 Fargo was a brand of trucks originally produced in the United States in 1913 by the Fargo Motor Car Company. Dropped in 1922, the name was reintroduced for a line of trucks manufactured by the Chrysler Corporation after purchasing Fargo Motors in 1928. of Chrysler's truck division is now known as Ram Trucks 58d0139c5c

Internal combustion engine cooling Watercraft can use water directly from the surrounding environment to cool their engines. For small or special purpose engines, cooling using air from the atmosphere makes for a lightweight and relatively simple system. Magirus-Deutz built air-cooled diesel trucks, Porsche built air-cooled farm tractors and Volkswagen became famous with air-cooled passenger cars. In the United Internal combustion engine cooling uses either air or liquid to remove the waste heat from an internal combustion engine. For water-cooled engines on aircraft and surface vehicles, waste heat is transferred from a closed loop of water pumped through the engine to the surrounding atmosphere by a radiator 58d0139c5c

== Truck stop services == 58d0139c5c In June 2009, when Chrysler emerged from Chapter 11 bankruptcy protection, Fiat Group received a 20% stake in Chrysler Group LLC and Sergio Marchionne was appointed CEO, replacing CEO Robert Nardelli. On June 10 that year, substantially all of Chrysler's assets were sold to "New Chrysler", organized as Chrysler Group LLC... 58d0139c5c In the interwar period, Tatra came to international prominence with its line of affordable cars based on backbone tube chassis and air-cooled engines, starting with Tatra 11 (1923). The company also became the pioneer of automotive aerodynamics, starting with Tatra 77 (1934). Following the 1938 German-Czechoslovak war and Munich Agreement, the town of Kopřivnice was occupied by Nazi Germany and Tatra's manufacturing... 58d0139c5c

Tatra (company) In 1890, it became a joint-stock company and was renamed the Nesselsdorfer Wagenbau-Fabriksgesellschaft. The First Truck was made a year later, in 1898. Owned by the Tatra Trucks a. In 1897, it produced the Präsident, which was the first factory-produced automobile with a petrol engine to be made in Central and Eastern Europe. In 1918, the company was renamed Kopřivnická vozovka a. s. international prominence with its line of affordable cars based on backbone tube chassis and air-cooled engines, starting with Tatra 11 (1923). The company Tatra is a Czech vehicle manufacturer from Kopřivnice. s. , and in 1919 it changed from the Nesselsdorfer marque to the Tatra badge, named after the nearby Tatra Mountains on the Czechoslovak-Polish border (now on the Polish-Slovak border). The company was founded in 1850 as Ignatz Schustala & Cie. company, it is the third oldest company in the world producing motor vehicles with an unbroken history 58d0139c5c

Prior to the 1970s, Dodge had maintained a separate marque for trucks, Fargo Trucks, primarily for use outside the United States. After that point, all trucks made by Chrysler were distributed under the Dodge marque. 58d0139c5c

DAF Trucks Its headquarters and main plant are in Eindhoven. In 1949, the company started making trucks, trailers and buses, changing DAF Trucks is a Dutch truck manufacturing company and a division of Paccar. Cabs and axle assemblies are produced at its Westerlo plant in Belgium. DAF originally stood for van Doorne's Aanhangwagen Fabriek. Some of the truck models sold with the DAF brand are designed and built by Leyland Trucks at its Leyland plant in the United Kingdom. II, luxury cars and trucks were very scarce. This meant a big opportunity for DAF 58d0139c5c

== Other terms == 58d0139c5c Born in New York City, Kenney pursued cartooning as a child and became a published cartoonist by the age of 18. He later studied Computer Science, Philosophy, and Visual Arts at Rutgers University, beginning a career as a graphic designer, and web designer. He received his first Lego toys at the age of 4, and continued to play with them through and into his adult years. 58d0139c5c

Truck stop Some truck stops operate motels A truck stop (known as a service station in the United Kingdom, a travel center by major chains in the United States and a roadhouse in rural Australia) is a commercial facility which provides refueling, rest (parking), food, and other services to motorists and truck drivers. facilities for heavy trucks, as well as vehicle wash services that can handle anything from passenger vehicles to large trucks. Truck stops are usually located on or near a busy road 58d0139c5c

Water has a higher heat capacity than air, and can thus move heat more quickly away from the engine, but a radiator and pumping system add weight, complexity, and cost. Higher power engines can move more weight but can also generate more waste heat, meaning they are generally water-cooled. Radial engines allow air to flow around each cylinder directly, giving them an advantage for air cooling over straight engines, flat engines, and V engines. Rotary engines have a similar configuration, but the cylinders also continually rotate, creating an air flow even when the vehicle is stationary. 58d0139c5c

== History == 58d0139c5c == Early career and childhood == 58d0139c5c The first successful mechanically refrigerated trucks were made for the ice cream industry in 1925. American inventor Frederick McKinley Jones is known to be the first person to invent a refrigerated truck. There were around 4 million refrigerated road vehicles in use in 2010 worldwide. 58d0139c5c Aircraft design more strongly favors lower weight and air-cooled designs. Rotary... 58d0139c5c

Sean Kenney (artist) Kenney's work Sean Kenney (born August 22, 1976) is a New York-based artist recognized by The Lego Group as a Lego Certified Professional. York magazine, and a retrospective book entitled 50 years of the LEGO Brick. He is best known for creating scale models, sculptures, and portraits with Lego toys. In 2009, he released his first book, Cool Cars and Trucks 58d0139c5c

Ram Trucks It was established in a spin-off of Dodge in 2009 using the name of the Ram pickup line of trucks. ". New series Ram 1500 pickups are made at Sterling Heights Assembly in Sterling Heights, Michigan. Ram Trucks' logo, featuring the head of a ram, was originally used by Dodge. Ram. Glory. Since its inception, the brand has used the slogan "Guts. Ram Trucks (stylized as RAM) is an American brand of light to mid-weight pickup heavy duty trucks and other commercial vehicles, and a division of Stellantis Ram Trucks (stylized as RAM) is an American brand of light to mid-weight pickup heavy duty trucks and other commercial vehicles, and a division of Stellantis North America (previously Chrysler Group LLC) 58d0139c5c

The modern-day descendant of Chrysler's truck division is now known as Ram Trucks. 58d0139c5c

Refrigerator car Milk cars (and other types of "express" reefers) may or may not include a cooling system, but are equipped with high-speed trucks and other A refrigerator car (or "reefer") is a refrigerated boxcar (US), a piece of railroad rolling stock designed to carry perishable freight at specific temperatures. Refrigerator cars differ from simple insulated boxcars and ventilated boxcars (commonly used for transporting fruit), neither of which are fitted with cooling apparatus. cooling agent. Milk cars (and other types of "express" reefers) may or may not include a cooling system, but are equipped with high-speed trucks and other modifications that allow them to travel with passenger trains. Reefers can be ice-cooled, come equipped with any one of a variety of mechanical refrigeration systems, or use carbon dioxide (as dry ice) or liquid nitrogen as a cooling agent 58d0139c5c

== History == 58d0139c5c In October 2023, Ram became part of the Stellantis Pro One global commercial vehicles division. 58d0139c5c American English: 58d0139c5c

Semi-trailer truck 75 m (62 ft) truck and trailer to haul on the continent now could be handled by just two 25. semi-trailer trucks and one 18. This transition occurred primarily between the 1920s and 1950s, driven by the need for greater efficiency, speed, and reliability. Semi-trailer trucks replaced traction engines in commercial and heavy haulage roles. A semi-trailer attaches to the tractor with a type of hitch called a fifth wheel. 25 m trucks - greatly reducing A semi-trailer truck (also known by a wide variety of other terms - see below) is the combination of a tractor unit and one or more semi-trailers to carry freight 58d0139c5c

== Background == 58d0139c5c There is a wide variety of English-language terms for a semi-trailer truck, including: 58d0139c5c

Refrigerator truck refrigerated truck. Most long-distance refrigerated transport by truck is done in articulated trucks pulling refrigerated hardside (box) semi-trailers, although insulated curtainsiders are common in some countries. There were around 4 million refrigerated road vehicles in use in 2010 worldwide. Like refrigerator cars, refrigerated trucks differ from A refrigerator truck or chiller lorry (also called a reefer), is a van or truck designed to carry perishable freight at low temperatures.

Occasionally, refrigerated trailers have been used as temporary morgues, and second-hand refrigerated trailers are frequently sold for use in tiny home conversions due to their insulation and existing status as a vehicle 58d0139c5c
