Park Avenue Armory Designed in the Gothic Revival style by Charles Clinton for the 7th New York Militia Regiment, the Park Avenue Armory was completed in 1880, with two expansions in the early 20th century. The armory also held military exercises, concerts, dance shows, dance balls, charity balls, and debutante balls. Since 2006, it has been the home of the Park Avenue Armory Conservancy, which leased the building for 99 years from the New York state government. matches. Short skirts had existed for a long time before entering mainstream fashion, though they were generally not called "mini" until they became a fashion trend in the 1960s. Instances of clothing resembling miniskirts have been identified by archaeologists and historians as far back as c. 1390–1370 BC. In the early 20th century, the banana skirt worn by the dancer

Josephine Baker for her mid-1920s performances in the Folies Bergère was subsequently likened to a miniskirt. Extremely short skirts became a staple of 20th-century science fiction, particularly in 1940s pulp artwork, such as that by Earle K. Bergey, who depicted futuristic women in a "stereotyped combination" of metallic miniskirt, bra and boots.
