

Mitsubishi Electric Air Conditioning Operating Manual

History of operating systems On the first computers, with no operating system, every program needed the full hardware specification to run correctly and perform standard tasks, and its own drivers for peripheral devices like printers and punched paper card readers. The growing complexity of hardware and application programs eventually made operating systems a necessity for everyday use. After Honeywell acquired GE's Computer operating systems (OSes) provide a set of functions needed and used by most application programs on a computer, and the links needed to control and synchronize computer hardware. introduced the GE-600 series with the General Electric Comprehensive Operating Supervisor (GECOS) operating system in 1962 d8ce5c4845

The Starion was one of the first modern Japanese turbocharged performance automobiles with electronic fuel injection. d8ce5c4845

Mitsubishi Starion Mitsubishi Starion is a two-door, turbocharged four-cylinder rear-wheel drive four-seat fastback sports car manufactured and marketed by Mitsubishi from The Mitsubishi Starion is a two-door, turbocharged four-cylinder rear-wheel drive four-seat fastback sports car manufactured and marketed by Mitsubishi from 1982 until 1989 — with badge engineered variants marketed in North America as the Conquest, under the Chrysler, Dodge, and Plymouth brands d8ce5c4845

The i-MiEV was launched for fleet customers in Japan in July 2009, and on April 1, 2010, for the wider public. International sales to Asia, Australia and Europe started in 2010, with further markers in 2011 including Central and South America. Fleet and retail customer deliveries in the U.S. and Canada began in December 2011. The American-only version is larger than the Japanese version and... d8ce5c4845

Bombardier CRJ700 series CRJ705, which were modified to comply with scope clauses. In 2020, the Mitsubishi Aircraft Corporation acquired the CRJ program and subsequently ended production of the aircraft. Officially launched in 1997, the CRJ700 made its maiden flight on 27 May 1999, and was soon followed by the stretched CRJ900 variant. Several additional models were introduced, including the further elongated CRJ1000 and the CRJ550 and CRJ705, which were modified to comply with scope clauses. In 2020, the Mitsubishi Aircraft Corporation acquired the CRJ program and subsequently ended production The Bombardier CRJ700 series is a family of regional jet airliners that were designed and manufactured by Canadian transportation conglomerate Bombardier (formerly Canadair) d8ce5c4845

Air conditioners, which typically use vapor-compression refrigeration, range in size from small units used in vehicles or single rooms to massive units that... d8ce5c4845

Sydney Trains rolling stock Most of the rolling stock are double-deck electric multiple units, while some are single-deck diesel multiple units and operate mainly as eight carriage sets, with some operating in four and two. double-deck electric multiple units, while some are single-deck diesel multiple units and operate mainly as eight carriage sets, with some operating in four The Sydney Trains fleet serves the metropolitan and intercity lines within Sydney, Australia d8ce5c4845

In addition to these small cars, "Colt" in the Mitsubishi... d8ce5c4845

Air conditioning controlling the humidity of internal air. Air conditioning is a member of a family of systems and techniques that provide heating, ventilation, and air conditioning (HVAC). Heat pumps are similar in many ways to air conditioners but use a reversing valve, allowing them to both heat and cool an enclosed space. Air conditioning can be achieved using a mechanical 'air conditioner' or through other methods, such as passive cooling and ventilative cooling. Air conditioning can be achieved using a mechanical 'air conditioner' or through other methods, such as passive Air conditioning, often abbreviated as A/C (US) or air con (UK), is the process of removing heat from an enclosed space to achieve a more comfortable interior temperature and, in some cases, controlling the humidity of internal air d8ce5c4845

Development of the CRJ700 series was launched in 1994 under the CRJ-X program, aimed at creating larger variants of the successful CRJ100 and 200, the other members of the Bombardier CRJ-series. Competing aircraft... d8ce5c4845

Mitsubishi Colt The Mitsubishi Colt is a nameplate from Mitsubishi Motors that has been applied to a number of automobiles since 1962. Chrysler, Mitsubishi's longtime partner, also used the name when applying its long-running practice of rebadging Mitsubishi vehicles as the Dodge and Plymouth Colt captive imports for the North American market between 1970 and 1994. It was first introduced with a series The Mitsubishi Colt is a nameplate from Mitsubishi Motors that has been applied to a number of automobiles since 1962. It was first introduced with a series of kei and subcompact cars in the 1960s, and then for the export version of the subcompact Mirage between 1978 and 2002 d8ce5c4845

The petrol-powered Forfour was discontinued in 2019 as production of all Smart internal combustion models ended at that time. Production of the EQ Forfour ended in 2021. It was indirectly replaced by the larger... d8ce5c4845 The most recent version was a subcompact car model manufactured between 2002 and 2013, sold under the Colt nameplate internationally. Mitsubishi replaced this series in 2013 with a newer generation which reverted to the Mirage name. d8ce5c4845

Smart Forfour The second generation was marketed in Europe from 2014 after an eight-year hiatus, using rear-engine or rear electric motor configurations The Smart Forfour (stylized as "smart forfour") is a city car (A-segment) marketed by Smart over two generations. It is based on the third-generation Renault Twingo, which also forms a basis for the third-generation Smart Fortwo. The first generation was marketed in Europe from 2004 to 2006 with a front-engine configuration, sharing its platform with the Mitsubishi Colt. The second generation was marketed in Europe from 2014 after an eight-year hiatus, using rear-engine or rear electric motor configurations. A battery electric version was marketed as the EQ Forfour beginning in 2018. with the Mitsubishi Colt d8ce5c4845

Mitsubishi i-MiEV The i-MiEV was the world's first modern highway-capable mass production electric car. The Mitsubishi i-MiEV (MiEV is an acronym for Mitsubishi innovative Electric Vehicle) is a five-door electric city car produced in the 2010s by Mitsubishi The Mitsubishi i-MiEV (MiEV is an acronym for Mitsubishi innovative Electric Vehicle) is a five-door electric city car produced in the 2010s by Mitsubishi Motors, and is the electric version of the Mitsubishi i. Rebadged variants of the i-MiEV are also sold by PSA as the Peugeot iOn and Citroën C-Zero, mainly in Europe d8ce5c4845

Mitsubishi Magna Developed The Mitsubishi Magna is a mid-size car that was produced over three generations between 1985 and 2005 by Mitsubishi Motors Australia Limited (MMAL). Over the years, each new series grew in size, and with the second generation of 1991, the range was bolstered by a luxury variant called Mitsubishi Verada and a V6 engine. Initially, Magna offered inline-four engines in a mid-size sedan package—a station wagon debuted in 1987. Developed as a replacement for the Mitsubishi Sigma, each Magna generation derived from Japanese platforms re-engineered for the Australian market and conditions. The Magna/Verada became the first Australian-made vehicle to be exported worldwide in large numbers, predominantly as the Mitsubishi Diamante. The third and final iteration Magna/Verada launched in 1996, adding. The Mitsubishi Magna is a mid-size car that was produced over three generations between 1985 and 2005 by Mitsubishi Motors Australia Limited (MMAL) d8ce5c4845

Sydney Trains K set 35 of the 40 K sets originally built (160 carriages) remain in service as of July 2025. The carriages are of stainless steel, double deck construction and share much of their design with the older S sets. The K sets are a class of electric multiple units (EMU) that currently operate on the Sydney Trains suburban network. Built by A Goninan & Co, the K sets The K sets are a class of electric multiple units (EMU) that currently operate on the Sydney Trains suburban network. Built by A Goninan & Co, the K sets first entered service in 1981 operating under the State Rail Authority, and later CityRail. The K sets are currently the second oldest in the Sydney Trains fleet (including intercity trains), and the oldest in the Suburban fleet d8ce5c4845
