

Journal Of A Student Midwife

A 2015 Cochrane review concluded that "most women should be offered midwifery-led continuity models of care and women should be encouraged to ask for this option although caution should be exercised in applying this advice to women with substantial medical or obstetric complications." The review found that midwifery-led care was associated with a reduction in the use of epidurals, with fewer episiotomies or instrumental births, and a decreased risk of losing the baby before 24 weeks' gestation. However, midwifery-led care was also associated with a longer mean length of labor as measured in hours. 013a46f3a6 == History == 013a46f3a6

Midwife The education and training for a midwife concentrates extensively on the care of women throughout their lifespan; concentrating on A midwife (pl. known as midwifery. : midwives) is a health professional who cares for mothers and newborns around childbirth, a specialisation known as midwifery 013a46f3a6

The education and training for a midwife concentrates extensively on the care of women throughout their lifespan; concentrating on being experts in what is normal and

identifying conditions that need further evaluation. In most countries, midwives are recognised as skilled healthcare providers. Midwives are trained to recognise variations from the normal progress of labour and understand how to deal with deviations from normal. They may intervene in high risk situations such as breech births, twin births, using non-invasive techniques. For complications related to pregnancy and birth that are beyond the midwife's scope of practice, including surgical and instrumental deliveries, they refer their patients to physicians or surgeons. In many parts of the world, these professions work in tandem to provide care to childbearing women. In others, only the midwife is available to provide care, and in yet other countries, many women elect to use obstetricians primarily over midwives. 013a46f3a6 ==

Auxiliary nurse midwife ANMs are regarded as the grass-roots

workers in the public health organisation pyramid. Auxiliary nurse midwife or nurse hybrids commonly known as ANM, is a village-level female health worker in India who is known as the first contact person Auxiliary nurse midwife or nurse hybrids commonly known as ANM, is a village-level female health worker in India who is known as the first contact person between the community and the official health services. Their services are considered important to provide safe and effective care to village communities. The role may help communities achieve the targets of national health programmes 013a46f3a6

Death doula Their role can also include more logistical activities, helping with services, planning funerals and memorial services, and guiding mourners in their rights and responsibilities. It is often a community based role, aiming to help families cope with death, recognizing it as a natural and important part of life. It is often A death doula, or death midwife, is a person who assists in the dying process, much like a midwife or doula does with the birthing process. These specialists perform a large variety of services, including but not limited to creating death plans, and providing spiritual, psychological, and social support before and just after death. The role can supplement and go beyond hospice. A death doula, or death midwife, is a person who assists in the dying process, much like a midwife or doula does with the birthing process 013a46f3a6

In 1971, she earned a master's degree in English at Simmons University, and subsequently a doctorate in history from the

University of New Hampshire, in 1980. 013a46f3a6 The A.C.N.M. Foundation, Inc. ('the Foundation') is a 501 (c)(3) charitable organization, incorporated in New York in 1967 with a mission to promote excellent health outcomes for all people and communities. The mission is accomplished in many ways, that includes support to midwives and... 013a46f3a6 Dating back to 1929, ACNM strives to be a leading example for excellence in midwifery education and practice in the United States and has a special interest in promoting global health in developing countries. The organization was founded in 1955.

013a46f3a6 The Certified Midwife (CM) credential was launched in 1997 by the American College of Nurse-Midwives (ACNM) and the AMCB to create a graduate-level, academically rigorous midwifery pathway for individuals with relevant health or science degrees who are not nurses. 013a46f3a6 The presence of the role of a modern death doula has been evolving in recent years, including a controversy over the regulation process for the position and the use of the term "midwife" as opposed to doula, and bills proposed to regulate the process and provide licenses for death doulas.

The terms "end-of-life doula", "end of life guide", "home funeral guide" and "celebrant" are also used. The field has also seen a significant rise in training organizations, which train hospitals along with individuals... 013a46f3a6 == Early life and education == 013a46f3a6 Jennifer "Jenny" Louise Lee was born in Clacton-on-Sea, Essex, on 25 September 1935, to Gordon and Elsie (née Gibbs) Lee. Worth was raised in Amersham, Buckinghamshire. She had a younger sister, Christine, and two younger paternal half-sisters. Worth was educated at the independent Bournemouth School for girls.

After leaving school at the age of 15 she learned shorthand and typing and became the secretary to the head of Dr Challoner's Grammar School. She then trained as a nurse at the Royal Berkshire Hospital, in Reading, and moved... 013a46f3a6 Laurel Thatcher was born July 11, 1938, in Sugar City, Idaho, to John Kenneth Thatcher, schoolteacher and superintendent as well as state legislator and farmer; and Alice Siddoway Thatcher. She graduated from the University of Utah, majoring in English and journalism, and gave the valedictory speech at commencement. 013a46f3a6

Midwifery medical specialty, which depends on a previous general training). A professional in midwifery is known as a midwife. A 2015 Cochrane review concluded that Midwifery is the health science and health profession that deals with pregnancy, childbirth, and the postpartum period (including care of the newborn), in addition to the sexual and reproductive health of women throughout their lives. A professional in midwifery is known as a midwife. In many countries, midwifery is a medical profession (special for its independent and direct specialized education; should not be confused with the medical specialty, which depends on a previous general training) 013a46f3a6

In 1973, the Kartar Singh Committee of the Government of India combined the functions of the health services and changed the role of ANMs. The committee recommended that there should be 1 ANM available per 10,000-12,000 people. 013a46f3a6 In 1975, the Srivastava Committee recommended expansion in the role of ANM. Recommended expansion

included the role of an ANM as a multipurpose health worker. Along with maternity care, the committee recommended that the ANM's work include child health (immunization) and primary curative care of villagers. The Indian Nursing Council (INC) accepted the recommendations of the committee and included them in the syllabus in 1977. This decision also reduced the training period of...

Midwifery-led continuity of care

A television series, *Call the Midwife*, based on her books, began broadcasting on BBC One in the UK on 15 January 2012 and on PBS in the US on 30 September 2012. Her manual, addressed not only to midwives but to all women who might become pregnant, mixes anatomical and physiological information, instruction about care for the mother during and after labour, and non-medical topics such as strategies for protection against accusations of misconduct. Published against a background of increasing male dominance of the midwifery profession, the book promotes the idea that female midwives, particularly those who were (like Stephen) themselves mothers, were the natural default for normal births. Stephen favoured a non-interventionist approach to labour, and her book strongly criticises some male midwives for an overreliance...

ACNM reviews research, administers and promotes continuing education programs, and works with organizations, state and federal agencies, and members of Congress to advance the well-being of women and infants through the practice of midwifery.

Biography

Davis has discussed information on controversial birth routines and how birth occurs on different levels of emotion and care, particularly in her 2019 revision of

"Heart and Hands: A Midwife's Guide to Pregnancy and Birth, 5th edition." Davis has written other books including: "Energetic Pregnancy," "Women's Intuition," "The Rhythms of Women's Desire: How Female Sexuality Unfolds at Every Stage of Life," "Orgasmic Birth: Your Guide to a Safe, Satisfying and Pleasurable Birth Experience" (co-authored with Debra Pascali-Bonaro), and "The Women's Wheel of Life" (co-authored with Carol Leonard). 013a46f3a6 ACNM publishes the Journal of Midwifery & Women's Health. 013a46f3a6 The credential emerged around the same time as the Certified Professional Midwife (CPM), introduced in 1994–1995 by the North American Registry of Midwives (NARM), which provided certification for midwives trained via apprenticeship... 013a46f3a6

Elizabeth Davis (midwife) She has been involved with midwifery education, legalization, and the battle for professional autonomy. Since 1977, Davis has pioneered a professional Elizabeth Davis is an author, women's health care specialist, educator, consultant, and Certified Professional Midwife (CPM). She is a resident of Sebastopol, California and a mother of three children. She is a resident of Sebastopol, California and a mother of three children. Since 1977, Davis has pioneered a professional path for midwives in the United States while educating women around the world. Professional Midwife (CPM). She lectures on reproductive rights, sexuality, and healing birth trauma. Davis is globally active as an expert on midwifery and reproductive health issues 013a46f3a6
