Homelessness has increased in recent years, in large part due to an increasingly severe housing shortage and rising home prices in the United States. Most homeless people lived in California, New York, Florida, and Washington in 2022, according to the annual Homeless Assessment Report. The majority of homeless people in the United States have been homeless for less than one year; two surveys by YouGov in 2022 and 2023 found that just under 20 percent of Americans reported having ever been homeless

Trance music is typically characterized by a tempo between 120 and 150 beats per minute (BPM), repeating melodic phrases and a musical form that distinctly builds tension and elements throughout a track often culminating in 1 to 2 "peaks" or "drops". Although trance is a genre of its own, it liberally incorporates influences from other musical styles such as techno, house, chill-out, classical music, tech house, ambient and film scores.
