Lists of metalloids 93 Ryan L 2000, Advanced chemistry for you, Nelson Thornes This is a list of 194 sources that list elements classified as metalloids. Individual lists share common ground, with variations occurring at the margins. The elements most often regarded as metalloids are boron, silicon, germanium, arsenic, antimony and tellurium. The sources are listed in chronological order. Lists of metalloids differ since there is no rigorous widely accepted definition of metalloid (or its occasional alias, 'semi-metal'). VS & Wistrom C 2000, Chemistry: Concepts and applications, Glencoe/McGraw Hill, Columbus OH, p. Other sources may subtract from this list, add a varying number of other elements, or both 44c4501bd4

History of Scotland As Rome finally withdrew from Britain, a Gaelic tribe from Ireland called the Scoti began colonising Western Scotland and Wales. Before Roman times, prehistoric Scotland entered the Neolithic Era about 4000 BC, the Bronze Age about 2000 BC, and the Iron Age around 700 BC. North of this was Caledonia, inhabited by the Picti, whose uprisings forced Rome's legions back to Hadrian's Wall. 1692, in an incident since known as the Massacre of Glencoe, 38 members of the Clan MacDonald of Glencoe were killed by members of the Earl of Argyll's Regiment The recorded history of Scotland begins with the arrival of the Roman Empire in the 1st century, when the province of Britannia reached as far north as the Antonine Wall 44c4501bd4
