For example, if a philosophical zombie were poked with a sharp object, it would not feel any pain, but it would react exactly the way any conscious human would. Philosophical zombie arguments are used against forms of physicalism and in defense of the hard problem of consciousness, which is the problem of accounting in physical terms for subjective, intrinsic, first-person, what-it's-like-ness experiences. Proponents of philosophical zombie arguments, such as the philosopher David Chalmers, argue that since a philosophical zombie is by definition physically identical to a conscious person, even its logical...

Lists of metalloids 30 Shubert D & Leyba J 2009, Chemistry and physics for nurse anesthesia: A student centred approach, Springer, NY, p. Other sources may subtract from this list, add a varying number of other elements, or both. The sources are listed in chronological order. 41 Whitten KW, Davis RE This is a list of 194 sources that list elements classified as metalloids. Individual lists share common ground, with variations occurring at the margins. Lists of metalloids differ since there is no rigorous widely accepted definition of metalloid (or its occasional alias, 'semi-metal'). The elements most often regarded as metalloids are boron, silicon, germanium, arsenic, antimony and tellurium. MA, p

Pulmonary circulation 1111/pan. &quot;Understanding cardiac shunts&quot;. Pediatric Anesthesia. PMID 29508477. S2CID 4323077 The pulmonary circulation is a division of the circulatory system in all vertebrates. The circuit begins with deoxygenated blood returned from the body to the right atrium of the heart where it is pumped out from the right ventricle to the lungs. Welker, Carson C. (April 2018). In the lungs the blood is oxygenated and returned to the left atrium to complete the circuit. 13347. doi:10. 28 (4): 316-325 7a24bce9e4

Dubin practiced medicine in Tampa, Florida, and gained fame within the medical community with the 1972 publication of Rapid Interpretation of EKG's, a best-selling textbook suited for medical students and junior residents. In it, Dubin adopts a simplistic fill-in-the-blank style to teach the basics of reading electrocardiograms. In the fiftieth printing of the book, he hid within the copyright notice an offer to give his prized 1965 Ford Thunderbird to anyone who actually read the message and responded. Out of 60,000 copies in that printing, only 5 readers noticed and responded, and Dubin's own daughter delivered the car to the... 7a24bce9e4 The large yellow book
