Engine swap companies have been founded which offer EV conversions for classic cars. Typically, an engine swap is performed for performance using a more powerful engine, but may also be performed for ease of maintenance as older engines may have a shortage of spare parts. This may be a like-for-like replacement or the installation of a non-factory specification engine. In the Honda world, common engine swaps include B-series engines as used in the sixth-generation In car tuning culture, an engine swap is the process of removing a car's original engine and replacing it with another 7c7e3d441e
