The ✓ green background means the other-language article exists about that specific topic in en-wiki, using an appropriate English title. 14_Year_Old_Girls 1001_Movies_You_Must_See_Before_You_Die "Variable (mathematics)"

Wikipedia:Language learning centre/Word list A big list will constantly show you what words you don't know and what you need to work on and is useful for testing yourself. Eventually these words will all be translated into big lists in many different languages and using the words in phrase contexts as a resource. transceivers transcend transcended transcendence

transcendent transcendental transcendently transcendentals transcending transcends
transcontinental transcribe Drawing up a comprehensive list of words in English is
important as a reference when learning a language as it will show the equivalent words you
need to learn in the other language to achieve fluency. You can use the list to generate
your own lists in whatever language you're learning and to test yourself 3e7e38b13d

Psychology assessment and treatment of mental health problems, it is also directed towards understanding and solving problems in several spheres of human activity. Biological psychologists seek an understanding of the emergent properties of brains, linking the discipline to neuroscience. Its subject matter includes the behavior of humans and

nonhumans, both conscious and unconscious phenomena, and mental processes such as thoughts, feelings, and motives. By Psychology is the scientific study of mind and behavior. Psychology is an academic discipline of immense scope, crossing the boundaries between the natural and social sciences. As social scientists, psychologists aim to understand the behavior of individuals and groups
